

## THE ORIGINAL WORK OF ART.®

Founded in 2002, **Pneumatic Vacuum Elevators, LLC (PVE)** is the inventor and original pioneer of the world's only air-driven home elevator, the Vacuum Elevator.

**Powered by the most abundant resource in the world, AIR**, Vacuum Elevators are panoramic, space-saving lift solutions that have revolutionized the elevator industry.

Celebrating **20+ years in business**, PVE is an innovative, technology driven company headquartered in Miami, Florida with subsidiaries across the globe.

With 28,000+ successful installations worldwide in **100+ countries**, PVE is proud to manufacture attractive, fully certified & reliable home elevators for customers across the globe.

**A WORK OF ART.  
POWERED BY AIR.®**

Model: PVE37 | Upgrades: Clear Polycarbonate,  
Split-Unit Mount, Custom Clear  
Top Floor Extension.

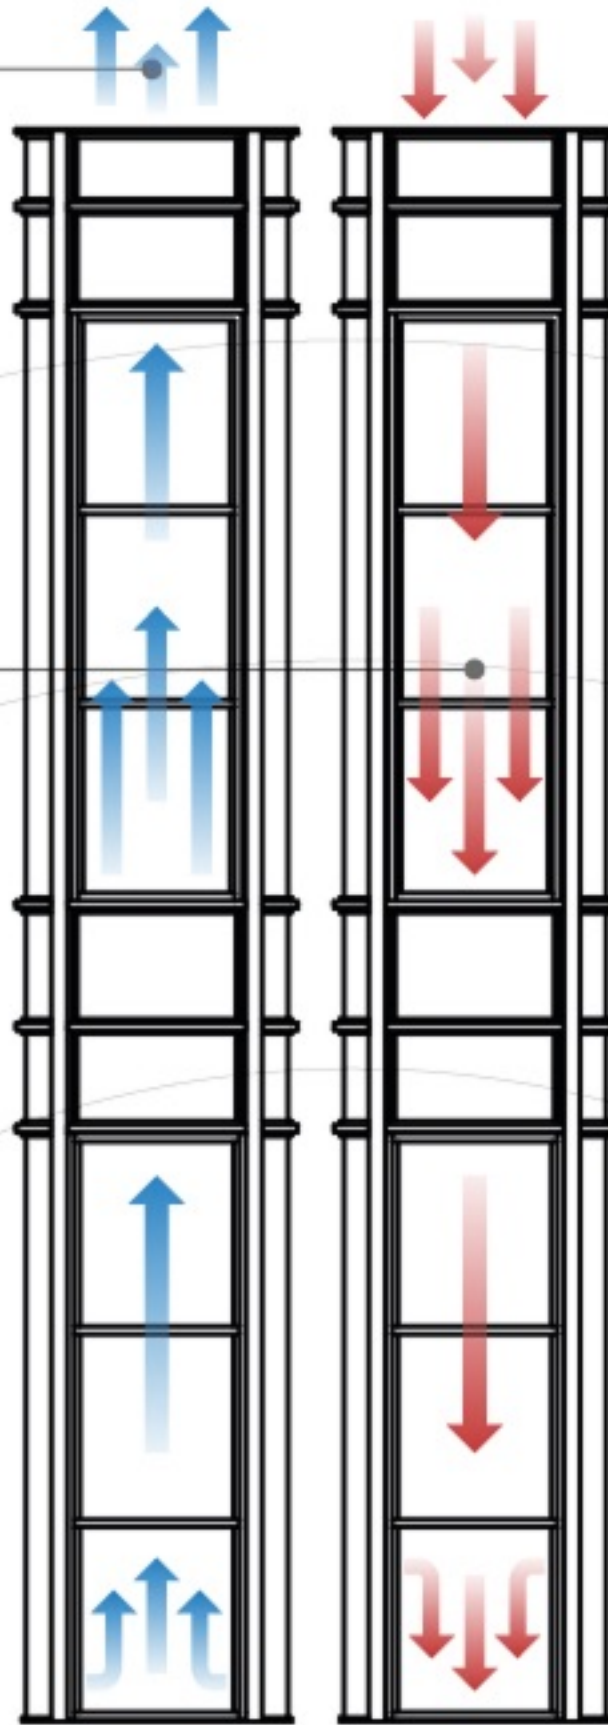

## HOW VACUUM ELEVATORS WORK

During ascent, the system **extracts air from the top** creating a vacuum which causes the cabin to rise.

For descent, the **air intake is controlled**, lowering the cabin gently with minimal power consumption.

Pneumatic Technology simplifies the operation while reducing wear and tear of components: **a smooth, safe & durable system.**

## LUXURY & ACCESSIBILITY FOR BETTER LIVING

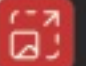

Model: PVE52 Upgrades: Anodized Silver Color, Top Floor Extension

## ADVANTAGES OF PVE HOME ELEVATORS

With an elegant design offering 360° degree visibility, these self-supporting elevators smoothly move between floors while requiring **less space, energy & maintenance.**

Resting on the existing ground floor of your home, PVE Home Elevators offer an **ease of installation** and can travel up to 5 stops or 50 feet in total rise.

The Cube is limited to 3 stops or 35 feet in total rise.

-  **Panoramic Design**
-  **2-3 Day Installation**
-  **Space-Saving Solution**
-  **Self-Supporting Elevator**
-  **Eco-Friendly Technology**
-  **Minimal Maintenance**
-  **Absolute Safety**

### THE POWER OF AIR

Using Pneumatic Technology to generate lift, PVE Home Elevators are the original & most reliable air-powered elevators in the world.

## FOUR MODELS AVAILABLE

A versatile solution that fits into even the tightest of locations, PVE's revolutionary technology **optimizes space with minimal construction or modifications to the home.**

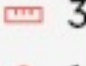

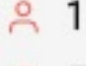

Providing a **faster & more flexible installation** for any project, all four PVE Home Elevator models are custom built for each residence while meeting the strictest quality & safety standards.

*\*PVE Home Elevators are not ADA compliant. Due to their space-saving design, not all wheelchairs may fit inside the PVE52.*
