

## Exploring Ombra Smart Pergola: Where Innovation Meets Nature

The Ombra Smart Pergola is a groundbreaking addition to modern living, merging futuristic design with nature. Inspired by ancient Greek architecture, it offers expansive views through a seamless blend of metal and glass. Ombra features a smart lighting system and advanced technology, allowing for personalized climate control and ambient lighting. This innovation lets you enjoy nature in any season, providing exquisite shade and comfort. Ombra embodies the perfect harmony of innovation and nature.

### About Letright Corporation

Founded in 1999 by Ren Li, Letright is a leader in outdoor furniture innovation, with over 1,000 patents and numerous international design awards. Operating in over 70 countries, Letright is known for its design excellence and market insights. Committed to sustainability, Letright uses eco-friendly materials, launching the Ombra Smart Pergola in 2023 to enable year-round outdoor enjoyment with negative carbon emissions. Their mission: "Better outdoor living, happier human beings."
