The Outer Limits® Aequa Series 2cm Porcelain Paver is an Italian-made porcelain offered in five natural colors. Digital print technology gives this tile the appearance of reclaimed wood. This series provides the warmth of timeworn matter that has taken on new colors and nuances over time. Continue your exterior look to your interior living spaces. A variety of tile sizes are available in the Aequa series for indoor surfaces.

Piece to piece variation in shade or color are inherent in all fired clay products; therefore, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. When mixing sizes within a series, shade, texture and calibration differences should be expected. A minimum grout spacing of 1/8" or 3mm is recommended. This series is suitable for residential and commercial applications. Because this material is a porcelain product, minimal maintenance is required.
